"I did receive the new Mochipet CD through digital download and I have to say that it is mega hardcore3! I really liked track 6 (waffle-core) because **I LOVE INVADER ZIM!** I think that these guys are frickin sweet for making a song that has audio from Gir and Zim, and I personally would love to hear more funny stuff like that. As for the rest of the songs I loved the intro to the whole cd, that was a good one and might also get some playtime on the station just because of how ingenious it was. I liked tracks #3 and #4 because they just sounded good with the hardcore bass beats and crazy electronic noises. The other tracks were still good and I would rate this album a 8.1 out of 10 because of the energy, uniqueness, and hard pounding tracks. The reason that it did not get higher
