6. Digitalis

(Ben) Samples is one half of the live remix project Fresh2Death that is based out of Boulder, CO. His style is crunk glitch-hop, complete with bass-heavy remixes of your favorite club anthems and hip hop. His professional DJ career started in 2006 when he picked up a weekly variety radio show for CU Boulder's KVCU. His show covered many styles and genres, with a focus on dance music and hip hop. Now, Samples blends

both hip hop and dance music into a hybrid club hip hop sound that is redefining the genres. Samples is a member of the Denver Bass Squad, which is the essential crew that pushes the heavy bass-line scene in the Denver/Boulder area, including a residency at the world-famous Beta night club.
