TURBO TALK

Mochipet is a Grindcore artist from Taiwan, that has been making hella noise in the underground Electronic circuits. Recently, he has been touring around America and the UK, and has shared the lineup with such artists as, Coldcut, Felix Da Housecat, Carl Craig, Bucovina Club, Dat Politics, Cristian Vogal, and M.I.A.. His music is Electronic disarray, and masterfully manipulates sounds and patterns to create some out of this world music. Some of it would be considered, "hard", but some of it has a Chip-Tune, danceable quality to it. He also uses alot of Drum&Bass drum beats that are freaked and tweaked like a madman. Because of the sonic boundaries he pushes, Mochipet is not for everyone, but for fans of chaotic Electronic like, Aphex Twin or Squarepusher, you might like Mochipet.
