WHAT DO I DO ... WITH MY ROBOT GIRL?

What do I do with my robot girl?

This age old question has been debated on forum boards and in IRC chat rooms for decades now and for millions of Otakus out there, it's a very serious problem.

Lucky for all us, EMO grindcore master, "Mochipet" just pulled a Dr. Phil to shed some light on this taboo subject.

His new track tittled: "*Ellen Allien - Robot Girl*" featuring Ellen Allien on his new album

“Donkey Disco” helps to expose the inner “robotic” demons and the turmoil that many in the Otaku community have to deal with — all along, raising some much needed awareness.

Mochipet’s blurbs:

Born in Taiwan R.O.C. to rocket scientist father and kindergarten teacher mother, David Wang (a.k.a. Mochipet) did not get his start in music until the age of 15, when the urge of metal guitar overtook him in Livermore California. Rocking through a set of 2 in speakers and a cheap stiletto six-string, David Wang conjured up the forces which began his music adventure.

So what do you do with your robot girl? Well, Mochipet may not have the answer you’re looking for but what he does have are fat beats, hypnotizing samples and a great track and new album you have to get.

Found on: Mochipet’s Myspace page
